

MARINE MASTERS
SHIP OPERATIONS
and **MANAGEMENT**

Ship operations and management are crucial to keep ships moving safely, economically, and efficiently. Marine Masters are your reliable partner for ship operations and management services – when and where it suits you.

SHIP OPERATIONS

Transshipment of liquid or non-liquid cargoes

If you need assistance with transshipment of liquid or non-liquid cargoes, Marine Masters are capable of providing solutions that add value to your operations. Our services comprise all aspects of transport such as procurement, preparation, import/export, and transport.

Projects: Transshipment of Methanol in Nigeria. Transshipment of Bulk in India.

Clients: Oil & Gas companies, Ship Owners

SHIP MANAGEMENT

Our experienced Technical and Marine Superintendents are available for overhaul, repair and modification works. Our services include drydocking and engineering.

Projects: Repair of CPP, Drydocking of Chemical Tankers, Installation of ballast water treatment plant.

Clients: Ship Owners

About Marine Masters

Marine Masters are a team of accomplished marine experts with an extensive track record in the shipping industry. We have worked for many reputable companies on numerous ship operations and management projects.

Contractors or entire team

Are you looking for an individual contractor or rather an entire team? We provide tailor-made solutions specifically for your organization and project. Our capabilities include Pilots, Masters, Project Managers, Naval Architects, Technical and Marine Superintendents.

Creative minds, inventive solutions

We like to think we are creative minds and accordingly we provide out-of-the-box solutions. We quickly assess the situation and come up with solid and cost-effective answers.

All the right skills without the overhead

We act fast, at competitive rates. Marine Masters work with competitive lump sum fees or day rates, compliant with client requirements. We have low overhead and we do not own assets, which means we are free to select the best equipment and personnel for your project. As a result, we offer effective, customized solutions at excellent value.

Available 24/7

Marine Masters are always on stand-by for urgent jobs. Emergency repairs, emergency transshipment, urgent technical assistance; we'll take care of it.

You can count on our support across the globe. In need of assistance?
