

# MASTERS IN MARINE SOLUTIONS

**MARINE MASTERS**  
**CONTRACTORS AND CONSULTANTS**  
**FOR THE SALVAGE, MARITIME AND**  
**OFFSHORE ENERGY INDUSTRY**

## **MARINE MASTERS** - YOUR TRUSTED PARTNER FOR SALVAGE, MARITIME TRANSPORT, DECOMMISSIONING, DISPUTE RESOLUTION AND SHIP OPERATIONS.

### **Marine Masters act as contractors and consultants for**

- Underwriters, Claims Handlers and Brokers
- Shipowners and Managers
- Offshore Energy industry

We offer consultancy for salvage, repair and ship modifications and provide project team members, managers, engineering capacity, naval architects and more.

### **Our activities include**

- Salvage Services
- Decommissioning Services
- Transport and Installation
- Dispute Resolution
- Ship Operations and Consultancy

Since Marine Masters' establishment in 2016, we have successfully been involved in over 60 emergency response jobs.

### **PRAGMATIC, CREATIVE AND RELIABLE**

Marine Masters always propose innovative methods that produce the right result in the shortest amount of time. Our team of experts has a wide variety of experience with various projects in diverse capacities. In any project, for any scope, you may rely on our pragmatic and collaborative approach. We will find a creative solution to help you complete the job.

### **COST-EFFECTIVE SOLUTIONS**

Marine Masters do not own equipment and have low overhead. We source equipment locally, in order to avoid high mobilization costs. We effortlessly adapt to local practices and procedures, working closely with local experts. Marine Masters deliver cost-effective work methods, timely executed and transparent. As a result, we perform the operations swiftly and cost-efficiently, anywhere in the world.

## UNDERWRITERS, CLAIMS HANDLERS AND BROKERS

**We have an extensive track record in Salvage, Towage and Dispute Resolution services.**

### SALVAGE

We engage in emergency response activities, wreck removals and towages. Our services include consultancy and contracting services in various capacities, including Special Casualty Representatives.

Being independent, we are free to select the optimal method and materials to perform the salvage operation in the safest, most effective, and economical manner. We work closely with carefully selected local partners, to ensure that owners have access to the best and most cost-efficient service.

ANY SHIP,  
ANYWHERE

### TOWAGE

Through our local partners and international network we are able to provide tugs to escort or tow your vessel to a safe haven.

### DISPUTE RESOLUTION

We offer marine contract consultancy in English maritime law, with a primary focus on your commercial interests and continuity. We prevent disputes where possible, or solve disputes by finding a commercial solution. As a result, our solutions are a lot less evasive on customer relationships and more effective and beneficial to your business.

## OFFSHORE ENERGY INDUSTRY

**Our services include decommissioning, transport and installation projects. We employ project-, field- and structural engineers, naval architects and superintendents.**

### TRANSPORT AND INSTALLATION

We provide project management and engineering for transport and installation of offshore structures, transportation of heavy and over-dimensioned modules and offshore towage and logistics support.

### DECOMMISSIONING

We provide project management and engineering for the decommissioning of platforms, legs, and any subsea structure. Our track record includes marine operations for removal, transportation and disposal including method statement, subcontract management and cost control.

THE RIGHT  
EXPERIENCE

## SHIPOWNERS AND MANAGERS

**We offer an extensive range of services for the shipping industry.**

### TRANSSHIPMENT

We are experienced in transshipment of gas, chemicals and edible oils. We employ captains, chief officers and experienced ship operators who support ship owners and charterers with transfer of their cargo. We like to be responsible for port logistics, quantity and quality.

### TANK CLEANING

Tank cleaning is a common procedure and we understand that time and speed are essential in the shipping industry. We are very much focused on fast response and propose the best solutions for tank cleaning.

### CONTRACT MANAGEMENT

We are able to provide strategic, commercial advice in the chemical/ vegoils shipping markets. Our experienced staff will analyze and if necessary optimize existing shipping routes and develop customized logistics solutions tailored to the needs of the Owner.

### TECHNICAL SUPERINTENDENCY

Our experienced technical and marine superintendents are available for overhaul, drydocking, modification and installation works. We employ naval architects, chief engineers and technical and marine superintendents who are able to prepare and execute the works. We keep costs within budget and are known for our expertise and hands-on approach.

FOCUS ON  
YOUR INTERESTS
